Delano Schools District DPIE

Press Release – immediate release

Delano District Partners in Education, is dedicated to developing supportive relationships between the community and schools that enrich the education of children

District DPIE is focused on building an endowment to provide opportunities for current and future students by raising and utilizing funds to provide Delano students the best chance for success in an everchanging world.

Knowing there is no stable or guaranteed financial resources, the most powerful safeguard of Delano's long-term well-being is the building of an endowment. Our goal is to build a \$1M endowment with a stretch goal of \$10MM in 10 years to help self-fund important needs, such as technology. We are currently at \$200,000.

Last week, Crow River CrossFit presented a check to Lynette Krampf and Natasha Werner in the amount of \$1065.00. These funds were raised via an original fundraising campaign designed and implemented by Crow River CrossFit!

The 1st Annual District DPIE Golf tournament is scheduled for Friday, September 8th. Join us for golf, great food and conversation. Sign up at <http://delanopie.org>

We firmly believe that great schools make great communities and want to thank you for your support.

Delano Partners in Education is made up of the District PIE and individual school DPIE's. District DPIE is focused on building an endowment to provide opportunities for current and future students by raising and utilizing funds to provide Delano students the best chance for success in an everchanging world. The individual school Delano PIE's are focused on serving the immediate needs of the school/group they represent, enriching the children's learning experience. The DPIE branches are the following and you can get more information at <http://delanopie.org/>: District EPIE, Elementary School DPIE, Middle School DPIE, High School DPIE, Community Education DPIE, and Music Boosters.
